

Searching for limiter headphones? Look no further! Triple Audio has built its own limiter into the Beyerdynamic DT 770 PRO headphones.

Protection

These headphones have you covered. With the built-in limiter your ears are protected against hearing damage.

Limiter

The built-in limiter is specially designed for these headphones, making sure you get a smoothly limited and safe audio level from your headphones.

Based on

The closed dynamic Beyerdynamic DT 770 PRO headphones form a solid base for the perfect limiter headphones.

Connection

The headphones have a stereo mini-jack with a 1/4" inch adapter at the end of the coiled cable which makes it possible to connect it to any device.
